

## IB Diploma and Applied Learning Provisional Results: May 2015 - Sha Tin College

Sha Tin College is extremely proud to announce another excellent set of IB Diploma results.

### IB Diploma Provisional Results

Compared to last year's record results we are delighted to note that another excellent set of results have been achieved with this year's cohort of students. 98.1% of our IB Diploma students achieved the full IB Diploma, which is nearly 20% above the worldwide IB percentage. What is particularly remarkable about the students' achievements is that Sha Tin College is an inclusive school which educates students of all abilities and it is pleasing that for another year the average total score for students achieving the IB Diploma has risen to 36.9 IB points, nearly more than 7 points above the world average.

We are very pleased that the number of Bilingual Diplomas our students have achieved has notably stabilized around 20. A Bilingual Diploma is achieved when students study two languages at native or near native level. A significant amount of work has been done at Sha Tin College to ensure that students take a level of Chinese which is appropriately challenging. Twenty Sha Tin College students achieved this prestigious qualification; this is 13% of our Diploma cohort. It is pleasing to note that the long term strategies put in place to improve provision in this area continue to yield impressive results and we will continue to develop this further in the future.

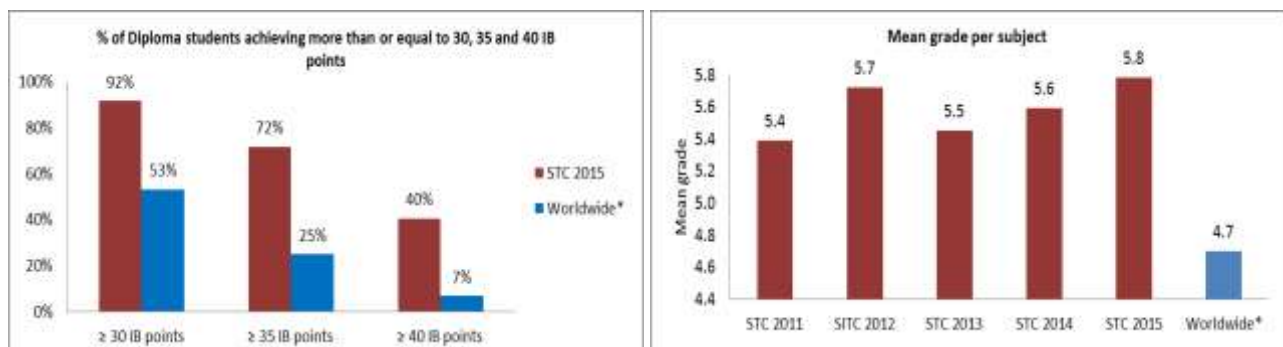

\* IBO Worldwide data for May 2014 is not yet available so May 2013 data has been provided. The worldwide data has stayed fairly consistent over the last few years.

72% of our students achieved 35 or more IB points compared to a World Average of 25% which is impressive. Even more impressive however is that 40% of these students achieved 40 or more points which is a new record for the College (40% compared to a World Average of 7%). This further demonstrates that Sha Tin College students are able to achieve a great deal of success, comparable with some of the most able candidates in the World. Some notable achievements were Stephanie Cheung, Ellen Hao and Hei Tung Wong with the maximum Diploma score of 45 points. Andrea Chan, Justin Cheng, Justin Fan, Oliver Ho, Matthew Mui, Clarence Ng and Oswald Tong all attained 44 points and Heidi Chen, Sum Kiu Ma (Gwendolyn) and Joyce Ng were awarded 43 points.

Average grades for IB subjects are well above worldwide averages for all IB subject groups and this is an indication that our students are achieving well across the curriculum. The average grade for Sha Tin College students is 5.8 IB points per subject compared to 4.7 worldwide, a slight increase to that achieved last year.

Whilst we are proud of the students mentioned above we are also particularly proud of the many students who fulfilled their personal potential and the students who were expected to find the diploma particularly challenging, yet through sheer hard work and effort managed to achieve more than the passing grade of 24 points.

Sha Tin College wishes to congratulate all those students who have achieved the IB Diploma and who will have secured higher education places in a variety of prestigious university destinations across the world. Over the summer, we will be actively supporting those students who may not as yet have secured a higher education place based on their achievements.

Sha Tin College is also very proud of our faculty. We are fortunate to employ an extremely talented and professional group of teachers who have worked tirelessly to support these students in their magnificent achievements.
